Forth at Length.

On one of the Melanesian Islands In the Pacific ocean lived a much-beloved pastor, a native, by the name of William. With one exception all of William's little flock bowed before his word. The one exception was the pastor's wife, Lydia, a lady possesseed of sterling qualities, but also, unfortunately, of a very long and very sharp tongue. Miss Flornece Coombe in "Islands of Enchantment" tells how the pastor's day of triumph over his indy finally arrived.

Poor William often had a hard time, but one day a bright idea broke upon three bottles of him. Lydia had been on the warpath, Lydis E. Pinkham's and had refused to allow him to have egetable Com- his say. He longed to speak his zind but the clattering tongue never ceased. Presently the church bell rang, and William hurried to his vestry to robe Lydia to her place among the women When prayers were ended, William came forward in his surplice to say s few words.

What must Lydia's feelings have been when she found that she herself was the text of her husband's discourse! As she sat there meekly and tearfully below him, for once William had his heart's desire and could say what he really thought. He had the first word and the last word, and al. the words between! Lydia was great ly edified by that sermon, and the rest of the island hugely enjoyed lt .-Youth's Companion.

NOBLE CHARITY IS THEIRS

Women of Methodist Episcopal Church Establish Orphanage to Care for Innocent War Victims.

Property for an orphanage in Greno ble, France, requiring an expenditure of \$35,000, has been purchased by the Woman's Foreign Missionary society of the Methodist Episcopal church, according to a statement of Mrs. Willlam Fraser MacDowell, president of the society. Two women have been sent to France to care for this orphanage, where 50 children will be commodated this year.

"The sum of \$5,000 has been transnitteed to North Africa for use in our nission there in the care of French orphans," said Mrs. MacDowell. "The same amount has gone to Italy for the care of Italian children orphaned by he war. All our organizations have een greatly interested this year in sending supplies of clothing to France. The cost of the new material used in these supplies is placed at \$0,120. It has been a joy to the society to be able to help a little in the cause which is stirring the hearts of the whole country.

Fresh Beef Travels on a Rapid Schedule

Fresh beef for domestic markets goes from stockyards to retail stores within a period of about two weeks. Although chilled, this meat is not frozen; hence it cannot be stored for a rise in price.

A steer is dressed usually within twenty-four hours after purchase by the packer. The beef is held in a cooler at the packing house, at a temperature a little above freezing, for about three days.

It is then loaded into a refrigerator car where a similar temperature is maintained, and is in transit to market on an average of about six days.

Upon arrival at the branch distributing house, it is unloaded into a "cooler", and placed on sale.

Swift & Company requires ail beef to be sold during the week of arrival, and the average of sales is within five days.

Any delay along the above journey means deterioration in the meat and loss to the packer.

I. Being a Neighbor (Luke 10:30-

The story of the Good Samaritan is Christ's answer to the lawyer's question: Who is our neighbor? He shifts the question so as to show that the supreme concern is not who is our neighbor, but whose neighbor am 1? If I am Christ's, my supreme concern will be to find those who have need that I may be a neighbor to them. If we love God supremély, we shall find all along life's highway souls who have been wounded and robbed by sin, whom we can love as ourselves. To be a neighbor is to-

WEAK KIDNEYS MEAN A WEAK BODY

When you're fifty, your body begins to creak a little at the hinges. Motion is more slow and deliberate. "Not so young as I used to be" is a frequent and unwelcome thought. Certain bodily functions upon which good health and good spirits so much depend, are impaired. The weak spot is generally the bladder. Unpleasant symptoms show themselves. Painful and annoying complications in other organs arise. This is particularly true with elderly people. If you only know how, this trouble can be obviated.
